How Solar Works:

If you finance your system, your monthly payment may be completely covered by the reduction in your electricity bill. Your choice of a Solar Edge system adds value to your home, ensuring your investment never depreciates. Your solar panels and inverter are attached to aluminum rails on the roof. The energy produced is collected and sent to an inverter, changing electricity.

The Solar Solar Difference:

- 100% Solar Panels
- Solar inverters
- Superior products
- Complete financing
- Fast installation
- Exceptional customer service
- Performance assets
- Quality & innovation
- Guaranteed customer
