BETTER DATA | BETTER DECISIONS

BACKGROUND | EXPERIENCE

FOUNDED IN 2006

- | **Brian Ellis** | Principal: 24+ years of pipeline and utility experience
 - Exposure to all major U.S. transmission pipeline and utility companies
- | Extensive experience: **Engineering, Integrity Management, and Operations**
- | Pipeline Materials, MAOP data validation (TVC), Class Location / HCA
 - **Enterprise GIS** – across utility portfolio
 - **Materials Verification**
 - **Inline Inspection (ILI) Program Management / Engineering** (20 direct reports)
- | **Audit Expertise** – internal, external, departmental compliance

MITIGATION OF OVERALL RISK LEVERAGING DECADES OF EXPERIENCE

Competing
priorities and
budgets

Lack of *integration*
of program and
project
management across
workstreams

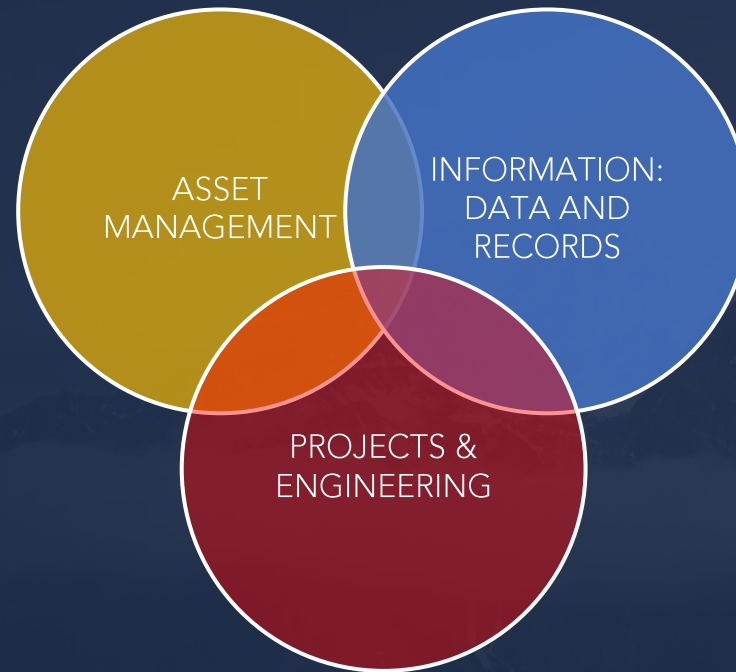

Challenges with
alignment on risk –
asset, societal, and
company

Prevention of
incidents

BETTER DATA | BETTER DECISIONS

Optimizing Asset Management | Streamlining Engineering & Project Execution | Integrating Information

pipelinelogic

PAST SUCCESS LEADING TO LASTING UTILITY PERFORMANCE

Achieved zero findings in integrated PHMSA audits

History of growing relationships within utility clients – including primes and other vendors

Built integrity systems for major operators from the ground up, reducing incidences

24+ years of industry experience on demand
